MONDAY MORNING, SEPTEMBER 2, 1867.

THE BLUE AND THE GRAY

[From the Atlantic Monthly] By the flow of the inland river,
Whence the fleets of iron have fled,
Where the blades of the grave-grass quiver,
Asleep are the ranks of the dead;—
Under the sod and the dew,
Waiting the judgment day;—
Under the one, the Blue;
Under the other, the Gray.

These in the robings of glory,
Those in the gloom of defeat,
All with the battle-blood gory,
In the dusk of eternity meet:
Under the sod and the dew,
Waiting the judgment dsy;
Under the laurel, the Blue,
Under the willow, the Gray.

From the silence of sorrowful hours The desolate mourners go,
Lovingly laden with flowers
Alike for the friend and the foe;
Under the sod and the dew, Waiting the judgment day ;— Under the roses, the Blue ; Under the lillies, the Gray.

So with an equal splendor
The morning sun-rays fall,
With a toych, impartially tender,
On the blossoms blooming for all; Under the sod and the dew,
Waiting the judgment day;
Broidered with gold, the Blue;
Mellowed with gold, the Gray.

So, when the Summer calleth,
On forest and field of grain
With an equal nurmur falleth
The cooling drip of the rain;—
Under the sod and the dew,
Waiting the judgment day;—
Wet with the rain, the Blue;
Wet with the rain, the Gray. Sadly, but not with upbraiding, The generous deed was done; In the storm of the years that are fading,

n the storm of the years that are no No braver battle was won; Under the sod and the dew, Waiting the judgment day;— Under the blossoms, the Blue, Under the garlands, the Gray. to more shall the war-cry sever,
Or the winding rivers be red;
hey banish our anger forever
When they laurel the graves of our dead!
Under the sod and the dew,

Waiting the judgment day;— Love and tears for the Blue, Tears and love for the Gray.

This poem is in grateful contrast to many that have appeared in this ably conducted Magazine on subjects relating to the war, and breathes a spirit more potent for reconciliation than a thousand bayonets or all the speeches

New Orleans Market.

NEW ORLEANS, August 28.—Corron.—The stagnation noticed in yesterday's report was partially continued to-day. There was little or no alteration in the offering supply, and as factors steadily adhered to previous requirements, thereby shutting out parties whose limits were restricted, the movement was confined to a few buyers holding orders, the execution of which would not admit of postponement. Hence the day's transactions were light aggregating barely 275 bales, generally intended for the completion of previously unfinished business. Prices were irregular and easier, but not quotably lower, the market closing at our quotations, with a tencency evidently downward. With the above remarks we repeat nominally as follows: Ordinary 21a23c; Good Ordinary 24a—; Low Middling 26½s—, and Middling 28½s—.

New York Market. MONEY MARKET.

The chief topic of interest is the advance on government bonds, in which there has been an active movement, caused partiy by the failure of certain speculators who have been trying by various manœuvres to depress who have been trying by various manœuvres to depress who have been trying by various manœuvres to depress who have been trying by various manœuvres to depress who have been trying by various manœuvres to in London the market. The advance of Five-twenties in London this morning is also due probably to similar causes.

The loan market is unchanged. It is difficult to employ large balances at more than 3 per cent. The current rate for call loans is 425, and for discounts 636%.

DOWIE & MOISE.

THE SALE OF THE FLANTATION BIT-TERS is without precedent in the history of the world. There is no secret in the matter. They are at once the most speedy, strengthening health-restorer ever discovered. It requires but a single trial to understand this. Their purity can always be relied upon. They are composed of the celebrated Calisaya Bark, Cascarilla Bark, Dandelion, Chamomile Flowers, Lavender Flowers, Wintergreen, Anise, Cloverbuds, Orange-peel, inake-root, Caraway, Coriander, Burdock, 8.-T.-1860-X. &c.

They are especially recommended to clergymen, public speakers, and persons of literary habits and sedentary life, who require free digestion, a relish for food and clear mental faculties. Delicate females and weak persons are certain to find in these Bitters what they have so long looked for, They purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overceme effects of dissipation and late hours. They strengthen the system and enliven the mind.

They prevent misematic and intermittent fevers.

They purify the breath and scidity of the stomach. They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus. They cure Liver Complaint and Nervous Headache. They are the best Bitters in the world. They make the weak man strong, and are exhausted nature's great

Messrs. Chickering & Sons:
GENCS: I have just been invited by Messrs. Collard to
try a Grand Plano-forte manufactured by you, and I
have no hesitation in endorsing the opinion of my old
friend, Mr. C. D. Collard, viz: That it is the fluest in-

nials from the most distinguished Artists in Europ to Mesers. Chickering & Sons: LONDON, July 25, 1868.

Among the chiefpoints of excellence of the Chickering Pianos, of which speak the renowned artists in their congratulatory testimonials to the Mesons. Ohickering, are the greatest possible depth, richness and volume of tone, combined with a rare heliliancy, clearness and perfect evenness throughout the entire scale; and, above all, a surprising duration of sound, the pure and sympathetic quality of which never changes under the most delicate or powerful souch.

During the past forty-three years this firm has manuscitured

80,000 PLANOS,

In the construction of which they have introduced every known and valuable improvement. They have invaria-bly been selected and used by all of the world's do-involledged great artists who have visited this country professionally, both for private and public use.

GOTTSCHALK. I consider Chickering & Sons' Pianos superior to any in the world.

They are unrivalled for their singing qualities and for the harmonious roundness of their tone. There is a perfect homogeneity throughout all the registers. The upper notes are remarkable for a clearness and purity which I do not find in any other instrument, while the base is distinguished for power without harshness, and for a magnificent sonority.

I have never heard a tone so perfect; it yields every
I have never heard a tone so perfect; it yields every
expression that is needed in music, and its quality is
capable of change to meet every seutiment. This is a
rare power, and is derived from the perfect purity of
its tone, together with its sympathetic, elastic and wall
balanced touch.

During the past eight years I have constantly played upon the justly celebrated Erard Pianos; yours are the only instruments that I have found, either here or in Europe, to equal them in all their points of excellence.

It may be estisfactory to our patrons and friends among the public at large to state that testimonials have been received from all the leading artists who have visited or are now residing in the United States, a fe # of whose names, besides those above, we append:

MESSES. CHICKERING & BONS—Gents: I have reach pleasure in enclosing a document signed by the first composers, musicians and professors in Europe. I held your Pianos in such high estimation (wide my certificate) that I felt it my duty to take one of them with me to Europe, to ascertain the opinion of my professional brethren. The enclosed certificate will prove how unanimous they have been on the subject. I beg to forward, at the same time, a letter I received from my friend, Mr. Collard, which I am sure must be gratifying to you.

James M. Wehli, Esq.:

My Dram Sim: I have great pleasure in saking youto convey to Measrs. Chickering the expression of my highest approval of their instrument, It is, I consider, not merely the best instrument of American manufacture that I have tried, but one of the finest Grand Planofortes that has ever come under my observation; and the Measrs. Chickering may well be proud of having turned out from their manufactory an instrument which, for touch, quality, power and workmanship, it would be very difficult to surpass in any part of the wide world.
